

King County ARES/RACES Net

Revised 6-26-11 Send updates to n7uk@arrl.net

Preamble:

All stations, this is [your call], my name is [your name]. I will be Net Control for the King County ARES/RACES Net.

This net meets every Sunday night at 2000 hours local time on the SeaTac Repeater Association repeater, 147.08 megahertz with a PL tone of 103.5 hertz. In case of repeater failure we will stay on the output frequency of this repeater.

The purpose of this net is to provide a point of contact for timely information with all of the emergency communications teams within King and the adjacent counties in the Puget Sound area. This information may consist of meeting, training or public service locations and dates.

This is a directed net. Please use your full call sign for recognition by Net Control. Please notify Net Control if you need to be excused prior to conclusion of the net. Visiting stations will be invited to check in after the teams. Stations with emergency or priority traffic may break in at any time.

Are there any mobiles or stations on emergency power?

Now calling for ARRL Officials for our region of the state:

- Acting Western Washington Section Emergency Coordinator: [Monte Simpson K2MLS]
- The ARESMAT Assistant Section Emergency Coordinator: [Jerry Sugden KC7NA]
- Public Information Coordinator for Western Washington: [Bruce Miller KC7IAY]

Now calling for King County leadership positions:

- ARES District Emergency Coordinator and RACES Regional Radio Officer: [Kirk Bellar N7UK]
- Public Service Events Advisor: [Gene Underwood W7AKA]

Now calling for King County Official Emergency Stations. Let me know if you able to monitor the State Emergency Net Frequency of 3.985 megahertz.

This is [your call], Net Control for the King County ARES/RACES Net, now calling for any emergency communications teams outside of King County. As you check in, please give us your call sign, name, agency represented and whether you have any traffic for the net.

Are there any missed or late check-ins?

Do we have any visitor stations wishing to check in at this time? Please give your call sign, name and location.

1. Stations with call suffixes Alpha thru Mike:

2. Stations with call suffixes Alpha thru Zulu:

Do we have any stations wishing after net contacts?

Do we have anyone, anywhere with anything for the net?

Please remember that if you have access to the Internet, you will find a listing of all team leaders and their email addresses, timely information, news items, and links to Amateur Radio websites. The address is www.aresofkingcounty.org.

This is [your call], Net Control for the King County ARES/RACES Net. I will be securing the Net at [current local time]. On behalf of the leadership and members of the King County ARES/RACES, I would like to thank George W7GLB for the use of the 147.08 repeater, and the repeater users for giving us a clear frequency. This is [your call] clear.
